

Technical data sheet

BauderFPO AV

FPO activator 2.5l

Product description	BauderFPO AV cleaning and activating agent
Application fields	Suitable for BauderTHERMOPLAN/BauderTHERMOFIN synthetic roofing systems. For cleaning particularly heavy dirt and weathering on Bauder FPO roofing membranes.
Colour	colourless transparent
Article number	6551 0025

Characteristic	Unit	Value
Chemical base	-	solvent mixture
Product storage	-	Store closed and cool
Flash point	°C	99
Density	g/cm ³	0.87
Viscosity	-	thin liquid
Consumption	-	30-60 g/lm seam depending on pollution
Reaction to fire	-	Flammable liquid and vapour
Health risk	-	Harmful in contact with skin
Package size	-	2,5 l

Note Apply the BauderFPO AV activator to the dirty area with a soft clean cloth, clean intensively and wipe dry. In the case of heavy dirt, wipe repeatedly with plenty of BauderFPO AV and a new cloth until the original colour is restored. Leave the treated areas to air dry and wipe with Bauder FPO cleaner. Do not use BauderFPO AV for surface cleaning. Seal the container after use, do not overheat. Observe the Bauder FPO application instructions and BauderFPO AV safety data sheet.
